WHO WE ARE

Your partner on the ground in Uzbekistan

WETRADE LLC is an Uzbek trading, investment and consulting company. We connect foreign investors, producers and buyers with projects and markets in Uzbekistan and Central Asia, and we stay with them through structuring, financing, permits and day-to-day implementation.

We work directly with ministries, regional administrations, banks and development institutions. Partners from Türkiye, China, the Republic of Korea, Indonesia and Vietnam have asked us for our portfolio — this book is our single answer to them.

Trading

Metals, steel, fuels, chemicals, fertilizers and food — import, export and re-export under LC, SBLC and CAD.

Investment

Project sourcing, screening, investor matching and co-development of industrial and energy assets.

Consulting

Financing packages, licences and permits, PPP and tender support, government relations.

Selected track record

Engagement	What we delivered
Ministry of Investment, Industry and Trade	National system engaging private consultants in investor services (investor service centres, invest.gov.uz)
Eurasian Development Bank	Technical-assistance programme on export potential and project financing
IFI-financed road tenders	Tender advisory for international contractors (Karakalpakstan)
Small hydropower, Kashkadarya	Project financing and implementation advisory
Industrial and mining clients	Bank-ready financial models, licensing and import permits

THE INVESTMENT CASE

A fast-growing market at the heart of Eurasia

$65.9 bn
foreign trade, 2024 (+3.8%)

$26.9 bn
exports, 2024 (+8.4%)

~5%
average GDP growth to 2030

41 m
population by 2030

World-class mineral base

Resource	Global rank (reserves)
Potassium salts	4
Gold	5
Copper	8
Uranium	12

The Uzbekistan-2030 strategy targets 3.5× copper output, 3× silver and uranium and 1.5× gold; copper is planned to rise from 148.5 kt (2024) to 413 kt a year from 2027.

Top trading partners, 2024

Share of total trade, %

Other key partners: Korea, Germany, Turkmenistan, Afghanistan, France, India. MFN regimes with 47 countries; 57 bilateral investment treaties.

Connected and reforming

Logistics hub

7,400 km of rail, 42,500 km of main roads; China–Kyrgyzstan–Uzbekistan railway with up to 15 Mt a year by 2030.

Investment drive

$250 bn of investment targeted by 2030; private sector to reach 85% of GDP.

Energy demand

Power demand from 79 to 117 bn kWh by 2030; 25% renewables and 5–7 GW of solar targeted.

Sources: PwC Uzbekistan Investment Guide 2025; Annual Mining Report 2023; IEA; Ministry of Energy.

INVESTOR REGIME

Tax holidays, low costs, open doors

At end-2024 Uzbekistan operated 25 special economic zones, 416 small industrial zones, 23 technology parks and 433 clusters with about 7,500 enterprises. Projects in the investment registry or under an investment agreement qualify for the reliefs below.

Special economic zone exemptions

Investment volume	Property, land & water tax	Corporate income tax
$0.3–3 m	3 years	—
$3–5 m	5 years	3 years
$5–10 m	7 years	5 years (to $15 m)
above $10 m / $15 m	10 years	10 years (above $15 m)

Plus: no customs duties on equipment and materials not made in Uzbekistan, or on raw materials for export output. Conditions: export orientation, fit with the zone's profile, at least 90% local staff.

Cost of doing business

Indicator	Uzbekistan	CIS avg.
Electricity, $/kWh	0.07	0.07
Natural gas, $/m³	0.13	0.198
Average wage, $/month	423	500
Corporate income tax	15%	16%
VAT	12%	15%
Personal income tax	12%	15%

Sector reliefs

Mining. Subsoil rights by auction or first-come in underexplored blocks; one-stop permits; duty-free exploration equipment.

Large projects. Land, VAT and income tax relief for 3–10 years under an investment agreement.

Renewables. Property and land tax exemptions; green-certificate income exempt from CIT.

Agriculture. 0% CIT for producers earning 90%+ from crops; agro-FEZs in Bukhara and Karakalpakstan.

Sources: PwC Investment Guide 2025; Legal Investor Guide 2025. Reliefs are granted case by case; WETRADE verifies eligibility.

INDUSTRY, AGRO & REAL ESTATE					
11	Railway spare-parts & components plant	TBC	On request	—	Partner identified
12	Poultry by-product processing for China	TBC	On request	—	Concept
13	Seoul Munn mixed-use complex	Tashkent city	On request	—	In development
14	International clinic complex, 3 ha (SurgeMed)	New Tashkent	On request	—	Land allocated

$4.9 bn
total capital, projects 1–9

Projects 1–5 and 9 are proposals of the Ministry of Investment, Industry and Trade; project 7 is a PPP proposal of UzbekHydroEnergo. Projects 6, 8 and 10–14 are sponsor projects represented by WETRADE; data shared under NDA.

PROJECT 1 · COPPER

Copper mining & processing cluster

Tashkent and Fergana regions · 100 ha · integrated from ore to LME Grade A cathode

$150 m	~20%	$110 m	5–6 yrs
financing required	IRR	NPV at 10%	payback

The project

Open-pit mining and crushing, grinding and flotation to concentrate, smelting and refining, electrolysis to high-purity cathode, and recovery of sulphuric acid and precious metals.

Acid feeds the fertilizer industry; cathode is export-oriented. Uzbekistan already ships cathode to the USA and Germany.

Annual output (design)

Product	Volume	Price basis
Copper cathode, Grade A	45,000 t	$8,500/t
Sulphuric acid	70,000 t	$90/t
Copper concentrate	20,000 t	$2,000/t
Precious metals	50 kg	$60,000/kg

Capital expenditure, $ m

Item	$ m
Processing plant	55.0
Mining infrastructure	30.0
Auxiliary facilities	10.0
Working capital & other	6.0
Environmental management	5.0
Core CAPEX	**106.0**

Financing need includes pre-operating and contingency costs.

Impact

- 1,200 direct and ~4,000 indirect jobs
- ~$15 m a year in taxes and royalties
- Import substitution for cable and wire makers
- Uzbekistan ranks 8th in the world for copper reserves

Investor role: strategic or financial investor, equity and/or debt; offtakers for cathode and acid. WETRADE supports subsoil permits, FEZ status and offtake structuring.

Source: Ministry of Investment, Industry and Trade, proposal No. 68. Figures are indicative and subject to due diligence.

PROJECT 2 · GOLD

Gold mining & processing complex

Bukhara region (lead site) · 1,520 ha · open pit with CIL plant · 2.5 t of gold a year

$489.7 m	25.7%	$362.5 m	~50 mo.
total CAPEX	IRR	revenue a year	payback

The project

Open-pit mining, two-stage crushing, grinding, flotation, carbon-in-leach, elution, electrowinning and smelting into doré bars for refining and export.

Uzbekistan holds the world's 5th-largest gold reserves and plans 1.5× output growth by 2030.

Proposed deposits

- Beltog — Bukhara
- Qayraqtosh — Karakalpakstan
- Yolsoy — Jizzakh
- Tolbuloq — Tashkent region
- Yongokli, Qirgokli — Surkhandarya

Financials

Indicator	Value
Land, construction, infrastructure	$110.5 m
Technological equipment	$348.1 m
Other CAPEX	$31.1 m
Annual OPEX	$232.7 m
Annual EBITDA	$129.8 m
NPV (5%, 10 years)	$682.6 m
Break-even at capacity	36.7%

Revenue at the initiator's price assumption of $150,000/kg.

600–650 jobs
mining, processing and services

Local value chain
construction, logistics, fuel, maintenance

Modern recovery
CIL with cyanide detox and ESG standards

Investor role: mining operator or strategic investor; PSA or investment agreement. WETRADE supports subsoil auctions, permits and incentives.

Source: Ministry of Investment, Industry and Trade, proposal No. 201. Figures are indicative and subject to due diligence.

ALUMINIUM VALUE CHAIN

Uzbekistan imported about 103,000 t of aluminium in 2024 (~$200 m), mainly from Russia (56 kt) and China (37 kt), with minimal local output. Both projects target this gap.

PROJECT 3

Aluminium processing & finished products

Navoi FEZ and Tashkent · 25 ha · 800+ jobs

$110 m	~28%	$55.7 m	3.9 yrs
investment	IRR	NPV at 10%	payback

Automated smelting and casting, extrusion and finishing, alloys and custom fabrication with AI-based quality control; 30% recycled input. Navoi FEZ has no advanced aluminium hub yet.

Revenue mix	$ m
Sheets and profiles	43.2
Recycled ingots	15.0
By-products	1.8
Revenue / EBITDA	**60.0 / 28.0**

PROJECT 4

Secondary aluminium recycling plant

Navoi region · 15 ha · 80,000 t a year of billet and ingot

$40 m	17.7%	$192.2 m	4 yrs
CAPEX	IRR	revenue a year	payback

Scrap sorting, melting, degassing, alloying (6063/6061, Al-Si), double filtration, DC billet casting and homogenisation. Supplies local profile and cable plants; 30,000 t a year for export.

Output	t/yr	$ m
Billet	48,000	117.6
Ingot	32,000	74.6
EBITDA		**15.6**

Synergy with WETRADE trade: we already supply A7 ingot and work with profile and automotive buyers — raw-material supply and offtake can start from day one.

Source: Ministry of Investment, Industry and Trade, proposal No. 07; MIIT, secondary aluminium proposal. Figures are indicative and subject to due diligence.

STEEL PRODUCTS

PROJECT 5

Steel wire rope plant

Tashkent region · 8 ha · 80,000 t a year · ISO, EN, ASTM · 500–700 jobs

$100 m	~20%	$30 m	4.5 yrs
CAPEX	IRR	NPV at 12%	payback

Full cycle from wire-rod preparation and drawing to galvanizing, stranding, closing, compaction and testing. Replaces imported ropes for mining, cranes and elevators; exports to Central Asia and the CIS.

Line	t/yr	Rev. Y1
General-purpose	50,000	35.0
Marine / anti-corrosion	20,000	23.0
Special & stainless	10,000	12.0

PROJECT 6 · SPONSOR PROJECT

Hot-dip galvanizing plant — DTF Galvanic LLC

Tashkent region (Angren) · batch galvanizing of steel structures · 30,000 t a year

$11 m	$10 m	$1 m	30 kt
total cost	senior debt sought	sponsor equity	capacity a year

Galvanizing for steel structures, power-line towers, road barriers and agricultural metalwork for Uzbekistan's construction and grid programmes. Feasibility study and a bank-ready 10-year model are complete.

- Lender: 15-year tenor, grace through construction
- EPC contractor or technology partner
- Land secured on a 10-year lease

Raw materials: WETRADE supplies wire rod, zinc and steel inputs and can bundle supply contracts with project financing.

Source: Ministry of Investment, Industry and Trade, proposal No. 184; DTF Galvanic LLC. Figures are indicative and subject to due diligence.

HYDROPOWER

PROJECT 7 · PPP

Karangitugay hydropower plant, 320 MW

Pskem river, Bostanliq district, Tashkent region · initiator UzbekHydroEnergo · 25-year agreements

$774.5 m
project cost

896 GWh
generation a year

$74.7 m
revenue a year

~6.3%
IRR

Investment agreement between the foreign partner and an approved local partner; power sold to Uzenergosotish under a PPA. Long-life, low-OPEX baseload asset; NPV $45.4 m over 30 years.

Financing plan	$ m
Loans	548.8
Foreign direct investment	169.0
Own funds	56.8
Total	**774.5**

PROJECT 8 · SPONSOR PROJECT

KhalQ small hydropower plants

Two plants on the Oqsuv river, Shahrisabz, Kashkadarya region · ~10 MW

$15 m
financing sought

2
run-of-river HPPs

~10 MW
capacity

WETRADE
financing adviser

Compact renewable asset seeking project finance or an equity partner, plus an EPC contractor or turbine supplier. Documentation under NDA.

- Demand to 117 bn kWh by 2030
- Thermal share to fall from 92% to 59%

Source: UzbekHydroEnergo PPP proposal; Ministry of Energy; KhalQ LLC. Figures are indicative and subject to due diligence.

PROJECT 9 · GREEN CHEMICALS

Green-hydrogen ammonia & methanol complex

Surkhandarya region · 7,600 ha · 100% solar-powered electrolysis with CO_2 capture

$3.2 bn	~14%	$691 m	$245 m
CAPEX	IRR	NPV at 10%, 20 yrs	EBITDA a year

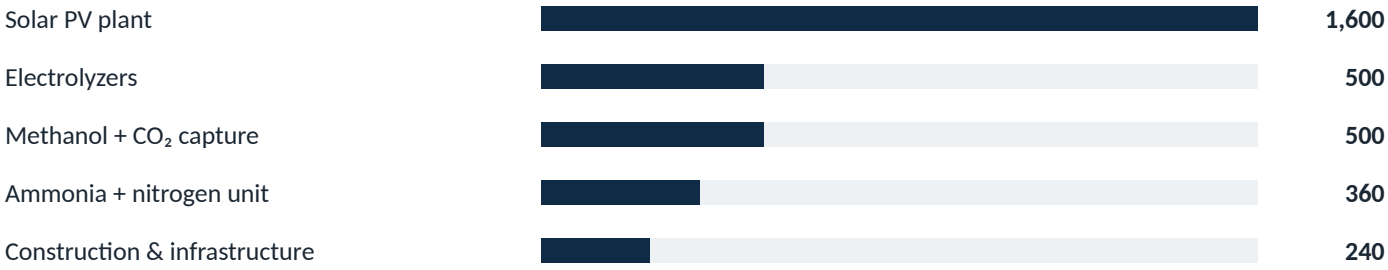

The project

PEM electrolyzers produce ~93,000 t of green hydrogen a year from a dedicated solar plant. An air-separation unit supplies nitrogen for ammonia; CO_2 captured from the Angor power plant feeds methanol synthesis to 99.85% purity. Water is recycled in a closed loop (80–85%); 6,000+ jobs.

Output & revenue

Product	t/yr	$ m
Methanol	300,000	150
Ammonia	200,000	140
Technical oxygen	70,000	5
Carbon credits	—	25
Total		**320**

Capital expenditure, $ m

Investor role: energy majors, chemical producers and green-hydrogen funds; phased development possible. Payback 13.1 years reflects infrastructure scale.

Source: Ministry of Investment, Industry and Trade, proposal No. 182. Figures are indicative and subject to due diligence.

SPONSOR PIPELINE · DATA UNDER NDA

More opportunities we represent

PROJECT 10 · DIGITAL INFRASTRUCTURE

10 MW powered site — Besqala Mining Valley

Kungirot, Karakalpakstan

Land by the Kungrad soda plant; 10 MW of unused grid capacity, power at ~11 US cents/kWh; up to 500 MW planned from a ~2 GW wind farm in 2027–2028.

Seeking: Data-centre or digital-mining operators

PROJECT 11 · INDUSTRY

Railway spare-parts & components plant

Location TBC · industrial partner from Russia

Localisation plant supplying parts and components to Uzbekistan's railways.

Seeking: Co-investors, equipment and technology partners

PROJECT 12 · AGRO-PROCESSING

Poultry by-product processing for China

Uzbekistan · with an international food partner

Chicken-paw processing for Chinese importers, combined with frozen-meat import and distribution.

Seeking: Chinese offtakers, processing-line suppliers

PROJECT 13 · REAL ESTATE

Seoul Munn mixed-use complex

Yakkasaray district, Tashkent

Residential and retail complex by Somang Development Korea; teaser available in four languages.

Seeking: Equity and co-development partners

PROJECT 14 · HEALTHCARE

International clinic complex on 3 ha — SURGE MED

New Tashkent · operating clinic in Urgench

An operating private international clinic has been allocated 3 ha in New Tashkent for a multi-profile medical complex.

Seeking: Healthcare investors, hospital operators, equipment partners

Request a teaser or NDA for any project: **sales@thewetrade.com**

MINISTRY PROPOSALS WITH FULL FINANCIALS · OUR PRIORITY REGIONS

17 ready-to-invest projects

Each project below has a full investment proposal — product mix, CAPEX/OPEX, five-year projection and a named potential local partner. WETRADE arranges introductions, site visits and structuring.

#	Project	Region	CAPEX, $ m	Revenue, $ m/yr	IRR	NPV, $ m	Payback, mo.
1	Logistics centre (FEZ "Tashkent")	Tashkent reg.	110	124.2	44.8%	202.7	35
2	Coal mine and thermal power plant (Angren)	Tashkent reg.	850	734.3	26.6%	641.5	58
3	Nickel-based catalysts	Tashkent reg.	300	280.6	25.7%	213.0	60
4	Special-purpose machinery (excavators, loaders)	Tashkent reg.	200	191.8	23.7%	121.4	65
5	Tungsten and high-purity copper products	Samarkand reg.	140	95.9	23.1%	173.8	57
6	6-aminopenicillanic acid (6-APA)	Tashkent reg.	92.3	105.0	35.5%	118.8	44
7	Industrial furnaces	Tashkent reg.	79.9	80.1	24.9%	54.5	62
8	Non-woven materials (medical, agro)	Tashkent reg.	75	129.7	36.1%	68.4	34
9	Technical textiles and polymer composites	Tashkent reg.	69.5	80.1	23.4%	41.5	66
10	Synthetic (polyester) yarn	Tashkent city	68.2	57.3	26.3%	97.1	49
11	Dairy processing complex	Tashkent reg.	60.5	64.5	28.2%	57.2	55
12	Para-aminophenol (PAP)	Tashkent reg.	40	48.0	33.2%	46.1	48
13	Geosynthetic materials	Tashkent reg.	20	55.3	59.8%	63.8	28
14	Pre-filled syringe drugs (GMP)	Tashkent reg.	19.6	72.3	156.1%	214.2	12
15	Faucets and shower systems	Tashkent reg.	16	22.0	26.1%	12.2	59
16	Jewellery production	Tashkent reg.	14.1	29.6	22.3%	7.8	70
17	Sterile IV infusion solutions (BFS)	Tashkent reg.	5.6	13.5	99.0%	39.7	17
	Total, 17 projects		**2,160.7**				

How to read: IRR and NPV are the initiators' estimates (NPV mostly at 10% over 10 years). Projects with very high IRR are small-CAPEX pharma lines; all figures go through independent due diligence.

Source: Ministry of Investment, Industry and Trade, investment proposals 2026. Figures are indicative and subject to due diligence.

PART II

Trade lines

What we buy, what we sell, where it goes — and the terms we work on.

Demand for metals, fuels, chemicals and food

Exports and re-export programmes

Partner countries

WETRADE

OUR TRADE MODEL

One counterparty for Central Asian trade

WETRADE buys for Uzbek plants, refiners, processors and distributors, and sells and re-exports commodities to buyers in Asia, the Middle East and beyond. We aggregate demand, negotiate with producers, arrange bank-secured payment and manage logistics to the final destination.

Importer

Direct buyer of raw materials, fuels, chemicals and food under annual or trial-then-term contracts.

Re-exporter

Back-to-back sales of metals, sulphur and agro products to end users in China, Indonesia and other markets.

Coordinator

Commission agent for local end users and licensed operators, preparing documents and negotiations for both sides.

Payment instruments

Instrument	Typical use
Transferable LC / DLC	Metals; released at discharge
SBLC	Term supply contracts
CAD	Frozen meat; paid before port arrival
T/T (MT103)	Trial lots, re-export sales

Delivery bases

Basis	Where
CIF Chukursay	Tashkent rail terminal
DAP by rail	Plant or refinery siding
CIF / CIP Poti	Georgia, then truck to Tashkent
FOB / CIF	Gulf, Baltic and Chinese ports

Corridors into Uzbekistan

Russia
Direct rail; metals, fertilizers

China
Rail via Kazakhstan; fuels, coke

Iran / Türkiye
10–12 days Tehran–Tashkent

Caucasus
Sea to Poti, truck on; ~50 days from Brazil

Quality control. SGS pre-shipment inspection, quality and origin certificates, halal for food, buyer inspection at destination.

Group entities. WETRADE LLC (Uzbekistan) and Honor Industry Group Co., Limited (Hong Kong) for international settlement.

THE MARKET, 2024

Who buys from Uzbekistan — and what it imports

$26.9 bn
exports (+8.4%)

$38.9 bn
imports (+0.8%)

$17.5 bn
trade with the EAEU (+7.3%)

Countries buying from Uzbekistan

Share of exports, %

Russia	13.7
China	7.6
Kazakhstan	5.4
Türkiye	4.3

OUR DEMAND · SUPPLIERS WANTED

What WETRADE is buying now

Volumes reflect open requirements from our end users and running contracts. We welcome offers from producers and authorised traders.

Product	Specification	Volume	Basis	Origins
METALS & STEEL				
Aluminium ingot A7	99.7% Al	up to 3,000 t/month	CIF Chukursay	Russia, Thailand
Copper rod	Cu 99.99%, GOST R 53803	100–500 t/month	CIF Chukursay	Russia
Copper cathode	LME Grade A	on request	CIF Chukursay	Russia, Kazakhstan
Steel wire rod	5.5 mm	regular lots	CIF Tashkent	Iran; new mills wanted
Foundry coke	90–150 mm	500 t trial → 12 months	DAP Tashkent	China, Iran
ENERGY, CHEMICALS & FERTILIZERS				
Jet A-1	ASTM D1655 / DEF STAN 91-91	5,000–10,000 t/month	DAP by rail	China
Phenol	industrial grade	term contract	DAP Tashkent	Türkiye, Asia
Potash (MOP), urea, AN	bulk	term contract	FOB St Petersburg	Russia
FOOD & LIVESTOCK				
Frozen beef, halal	boneless cuts, offal	~5,000 t/year	CIF Poti	Brazil, Paraguay
Sugar	ICUMSA 600–1200; ICUMSA 45	term contract	CIF Poti / Riga	Brazil
Cottonseed oil	refined / crude	regular supply	DAP Tashkent	Turkmenistan
Pet food	dry and wet	distribution	DAP Tashkent	Türkiye
Breeding cattle	Limousin, Simmental, Angus	300 head/month	truck, ~10 days	Hungary; Brazil by air

Send offers with specification, origin, volume, price basis and payment terms to **sales@thewetrade.com**

LINE 1 · METALS & STEEL

Metals & steel

Cable, profile, automotive, construction and foundry industries in Uzbekistan depend on imported metals. In 2024 the country imported about 103,000 t of aluminium (~$200 m) with minimal local output.

Aluminium ingot A7

Volume	up to 3,000 t/month
Pricing	LME-linked discount
Basis	CIF Chukursay
Payment	Transferable LC at discharge

Buyers: extrusion and profile plants, cable makers, automotive suppliers; re-export to China.

Copper rod & cathode

Spec	Rod Cu 99.99%; cathode Grade A
Volume	100–500 t/month
Pricing	LME-linked
Payment	Transferable DLC

Buyers: cable and wire plants producing for export.

Steel wire rod 5.5 mm

Use	wire, mesh, nails, ropes
Volume	regular monthly lots
Basis	CIF Tashkent
Wanted	additional mills

We also distribute steel in Tashkent and import from China, Russia and Kazakhstan.

Foundry coke

Size	90–150 mm (below 70 mm rejected)
Quality	high fixed carbon, low ash
Volume	500 t trial, then 12 months
Delivery	10–12 days to Tashkent

Buyers: cupola foundries — undersize falls through the grate.

What we offer suppliers

Aggregated demand
several end users under one contract

Bank-secured payment
LC or SBLC via Uzbek and international banks

Logistics handled
from border to plant, incl. customs

LINE 2 · ENERGY & CHEMICALS

Energy, chemicals & fertilizers

Chemicals (12.0%) and mineral fuels (10.1%) are among Uzbekistan's largest import groups. We serve aviation, chemical plants and agriculture, and place Gulf sulphur with fertilizer producers abroad.

WE BUY

Jet A-1

Spec	ASTM D1655 / DEF STAN 91-91
Volume	5,000–10,000 t/month
Basis	DAP refinery by rail
Pricing	weekly reference

For an Uzbek refinery and an airport fueller; long-term supply targeted, licensed by the Ministry of Energy.

WE BUY

Phenol

Spec	industrial grade
Volume	term contract
Basis	DAP Tashkent
Wanted	producers, authorised traders

For resin and chemical plants in Uzbekistan; Turkish and Asian suppliers welcome.

WE BUY

Fertilizers: MOP, urea, AN

Form	bulk
Basis	FOB St Petersburg
Origin	Russia

Grain harvest topped 9 Mt for the first time in 2024 — fertilizer demand keeps growing.

WE SELL

Granular sulphur

Origin	Oman, UAE, Saudi Arabia, Turkmenistan
Lots	vessel lots, annual programmes
Basis	FOB / CFR
Buyers	Indonesia, Brazil, Morocco

For phosphate fertilizer, nickel HPAL and sulphuric acid producers.

Compliance first: for regulated products we confirm the end user's licences and authorisations before contracting and work only with licensed counterparties.

LINE 3 · FOOD & AGRICULTURE

Food, agriculture & livestock

A young population growing 2% a year and rising incomes drive demand for protein, sugar and vegetable oil. We supply processors, caterers, HoReCa distributors and regional food-reserve programmes.

Frozen beef, halal

Product	boneless cuts, offal
Volume	~5,000 t/yr; ~20 containers/month target
Basis	CIF Poti, then truck (~50 days)
Payment	CAD

Brazil (first shipments delivered), Paraguay under review; 10+ local processors signed.

Poultry

Product	frozen chicken; chicken paws
Flow	import; paws processed for China

Joint project with an international food partner to process in Uzbekistan.

Sugar

Grades	raw ICUMSA 600–1200; white ICUMSA 45
Basis	CIF Poti / Riga

For refiners and food manufacturers in Central Asia.

Vegetable oil & pet food

Oil	cottonseed oil, Turkmenistan
Pet food	dry and wet, Türkiye

Producers seeking Central Asian distribution are welcome.

Breeding cattle

Breeds	Limousin, Simmental, Black Angus	Volume	300 head/month, scalable
Origin	Hungary by truck (~10 days)	Service	rations, vet papers, monitoring

Transit approvals collected (Bulgaria, Georgia, Azerbaijan, Kazakhstan); import fully insured.

With every food shipment: quality, halal and veterinary certificates and SGS inspection; buyer may inspect at destination and visit the plant.

BUYERS WANTED

Uzbek goods in high demand abroad

Precious metals, services, cotton, mineral fuels and copper products make up about 70% of Uzbekistan's exports. We source from Uzbek producers and run re-export programmes for buyers in Asia.

Category	What is available	Main buying markets
Non-ferrous metals	Copper cathode and products, zinc, lead concentrate, molybdenum; in 2023 ~57 kt of copper and ~42 kt of zinc exported	China, Türkiye, Europe, USA; ~30 countries
Secondary aluminium	Alloys and ingots from scrap; 6.4 kt exported in 2024	China, Japan, Latvia
Cotton & textiles	Yarn, fabrics, knitwear and home textiles from integrated clusters	Russia, China, Türkiye, Europe
Fruit, vegetables & grain	Fresh and dried fruit, vegetables, pulses; agri exports $1.5 bn in 2024	Russia, Kazakhstan, China, Afghanistan
Chemicals & fertilizers	Nitrogen and phosphate fertilizers, soda ash, polymers (6.3% of exports)	Central Asia, Afghanistan, Türkiye
Building materials	Cement, glass, ceramics, cable and wire	Central Asia, Afghanistan

Our re-export programmes

Aluminium A7 → China

Russian-origin ingot via Vladivostok to Shanghai for automotive and industrial users; 12-month contracts.

Sulphur → Indonesia, Brazil, Morocco

Gulf and Turkmen sulphur in vessel lots for fertilizer and metallurgy.

Chicken paws → China

Processed in Uzbekistan for Chinese importers.

For buyers: send product, specification, volume and destination port — we return producer offers, samples and inspection options.

COUNTRY BY COUNTRY

What we can do together

Country	We buy / welcome offers for	We offer
China #1 partner · 18.9% of trade	Jet A-1, foundry coke, equipment and parts for our clients	A7 aluminium re-export, chicken paws, copper and agro products; investment in metals, green chemicals, powered site
Türkiye 4.5% of trade	Phenol, pet food, food products, processing lines	Cotton and textiles, non-ferrous metals, co-investment in industrial projects
Republic of Korea 5.0% of imports	Machinery, automotive components, medical equipment	Real estate (Seoul Munn), healthcare and industrial projects
Indonesia WETRADE partner country	Open to offers: vegetable oils, coal and coke, food	Granular sulphur; Uzbek fertilizers and cotton
Vietnam WETRADE partner country	Open to offers: food products, consumer goods	Cotton and yarn, fertilizers, non-ferrous metals
Russia #2 partner · 17.6% of trade	Aluminium A7, copper rod and cathode, fertilizers	Fruit, vegetables, textiles
Brazil · Paraguay food origins	Halal beef, poultry, sugar, breeding cattle	Distribution in Central Asia; sulphur
Gulf · Iran · Hungary · Turkmenistan supply origins	Sulphur, coke and wire rod, breeding cattle, cottonseed oil	Transit and distribution into Uzbekistan and neighbours

Languages.

Correspondence and contracts in English, Russian, Uzbek and Turkish; Chinese documents on request.

Government channels.

We work with trade attachés, embassies and the Ministry of Investment, Industry and Trade.

330 projects with investment volume and jobs

WETRADE

ANNEX

Priority investment projects in five regions

From the national address list of 848 prospective investment projects, we selected the 330 projects located in Tashkent city and the Tashkent, Samarkand, Navoi and Syrdarya regions — the regions where WETRADE works most actively and can support investors on site.

330
projects

$44.1 bn
total investment

HOW WE WORK WITH PARTNERS

From first call to first production

1. **Inquiry & NDA**
   Tell us your sector, ticket size and structure; we sign an NDA and shortlist projects within days.
2. **Teaser & data room**
   Teaser, feasibility study, financial model and permits in English, Russian, Turkish or Chinese.
3. **Site visit & meetings**
   Visits and meetings with ministries, regional administrations, banks and sponsors.
4. **Structuring & financing**
   Investment agreement, FEZ or PPP status, incentives, debt from banks, IFIs and ECAs.
5. **Implementation & trade**
   Licences, hiring, raw-material supply and offtake through our trading desk.
